## To: Trial Lawyers Handling Major Personal Injury or Wrongful Death Cases

Do you need information concerning an opposing expert witness who is located in southern California? **DJS ENTERPRISES** can help you.

**For the modest sum of \$150, we can supply you with past cases in which that expert has testified. Such information can be devastating when you cross-examine that expert at trial or during deposition.**

Many experts handle cases for plaintiffs and defendants. By getting that expert's past cases, you might be able to show that the opinion he/she is giving in your case is exactly the opposite of an opinion given in a prior case where that expert was on the other side of the fence.

Some career expert witnesses try to be "experts on everything". By getting past cases, you can show that the witness has testified as a purported expert on everything from elevators to automatic transmissions to pop-up toasters.

**By using past cases, you can show that the expert almost always gives opinions favorable to the side that hired him or her.**

Each case listing includes the case name, case number, trial date, trial judge, defense attorney, defense law firm, plaintiff attorney, verdict amount, and summary of the facts. You might then want to contact some of the listed trial attorneys to obtain depositions and/or transcripts of trial testimony given by that expert.

Most career experts will admit that they consult on at least ten cases for every one case they actually testify in court. That ten-to-one multiplier factor will show that this expert makes very big money by serving as a professional expert witness.
